Profile

Computer Science Enthusiast: A motivated second-year B.Tech student with a strong foundation in programming and problem-solving. Proficient in C++ and always exploring new technologies.

Hackathon Experience: Actively participating in hackathons, with a runner-up finish, where I honed my ability to think on my feet, collaborate effectively, and communicate ideas clearly.

Growth-Oriented: Always seeking opportunities to learn, grow, and apply my skills to real-world projects that push me beyond my comfort zone.

Education

Pursuing B.Tech in Computer Science and Engineering

Prestige Institute of Engineering Management and Research

2023 - 2027

Indore, Madhya Pradesh

Indian Certificate of Secondary Education (ICSE)

Little Wonders Convent School

2023

Indore, Madhya Pradesh

Skills

Programming Languages: C++, C#

Developer Tools: Git and GitHub, Windows, VS Code

Soft Skills: Communication, Adaptability, Teamwork, Multitasking

Strengths: Fast Learner, Problem Solver, Dedicated Team Player

Coursework: Data Structures, Object Oriented Programming

Hackathon Experience

Hackathon Participant

Various Hackathons

India

- Worked with teams to solve real-world problems in university and national-level hackathons under tight deadlines.
- Presented technical ideas clearly to judges and mentors, explaining solutions in a simple and effective way.
- Achieved Second Runner-up position in a competitive hackathon, standing out among multiple teams.
- Interacted with industry experts and students, improving team collaboration and time management skills.

Projects

College Management System Website | *A dynamic platform to manage academic and administrative tasks.*

- Collaborated with a team to build a user-friendly college management website. (**MongoDB, Express.js, React, Node.js**).
- Implemented features such as **student/teacher login, signup forms, marks display** and **feedback section**.
- Created informational pages such as **About College, Placements** and **Contact Us**.
- Focused mainly on designing clean and responsive web pages with basic backend integration.
- Improved understanding of frontend development and teamwork in web projects.

Certifications & Achievements

- Secured **Second Runner-up** in a website development competition at **Urjotsav 2024 – PIEMR**, recognized for creativity, design, and technical execution.
- Completed **Object-Oriented Programming Onramp – MathWorks** in January 2025, gaining foundational knowledge of object-oriented programming (OOP) concepts.
- Earned a certificate in **Introduction to GitHub – Microsoft** in January 2025, with hands-on experience in version control using Git and collaboration through GitHub repositories.
- Completed **Time Management – Infosys Springboard** in June 2024, learning effective task organization, priority setting, and productivity strategies.
- Acquired brief exposure to full-stack JavaScript development in **Hands-On MEAN Stack Web Development – Infosys Springboard**, January 2025, including MongoDB, Express, Angular, and Node.js.
- Gained strong foundational knowledge in C++ through **Building Blocks of Application Development with C++ – Infosys Springboard**, completed in January 2025.
